## PROFESSIONAL SUMMARY

Senior software engineer with over 20 years of experience designing, building, and leading enterprise web applications across hospitality, education, healthcare, and retail for clients in Indonesia and Australia. Strong in backend engineering, software architecture, and full-stack development, with deep expertise in ColdFusion/ColdBox (Lucee), Go (Golang), PostgreSQL/MariaDB, REST API design, and authentication & authorization systems. Experienced leading small engineering teams and turning complex business requirements into maintainable, long-lived software.

## PROFESSIONAL EXPERIENCE

### Senior Software Engineer / Technical Lead MMC Marketing Group

2006 – Present

Lead software architecture, technical planning, and full-stack development for enterprise web applications — managing a small team of developers and designers, reviewing implementations and consulting directly with clients on solution design. Now engaged on a project basis.

#### eSpace — Event Management System — PPHotels Group

- ▶ Architected and built an event-management platform supporting event planning and coordination across the hotel group's properties (recent flagship project). Stack: ColdFusion, ColdBox, MariaDB, REST API.

#### AISWA Online Information System — Assoc. of Independent Schools of WA

- ▶ Led architecture, database design, authentication, and reporting modules for a system serving ~150 schools and 59,000 students. Stack: PHP, Drupal, MariaDB.

#### eReZ — CMS & Online Reservation System — Bali luxury hotels & villas

- ▶ Built the reservation engine and CMS used by Bali Dynasty Resort, Prime Plaza Hotel Sanur, and Prima Plaza Suites Sanur. Stack: ColdFusion, MariaDB.

#### ePlat — Collaborative educational planning

- ▶ Built an online platform enabling teachers to create, manage, and share educational planning resources. Stack: ColdFusion, MariaDB.

### Backend / Full-Stack Developer (Freelance)

Ongoing

#### PT Biru Langit Tekno (BlueSky Technology)

#### PT Interbat — Sales Management Platform — via BlueSky

- ▶ Developed the backend REST API (Go + PostgreSQL) and the Next.js management dashboard, delivering a real-time reporting platform to improve field sales-force efficiency. Stack: Go, PostgreSQL, Next.js, REST API.

#### Gobind Vashdev — Breathing Exercise Mobile App — via BlueSky

- ▶ Built the backend API (Go + PostgreSQL) powering the core functionality of a wellness mobile application.

### Independent Software Consultant

Ongoing

#### Direct clients

WordPress website development and technical consultation for clients in healthcare, hospitality, tourism, and professional services — theme customization, SEO optimization, and performance/bug fixes.

- ▶ **RSU Karya Dharma Husada (rskdh.com)** — hospital site (Singaraja, Bali) with online appointment booking and a specialist directory.
- ▶ **27 Surf Bali (27surfbali.com)** — surf-school site with SEO-optimized service pages, Schema.org structured data, and Rank Math/Yoast compliance.
- ▶ **Thera Bespoke (therabespoke.com)** — luxury rehabilitation and holistic care site.
- ▶ **Jatiluwih Bali Adventures (jatiluwihbaliadventures.com)** — adventure-tour operator site (cycling, hiking, trekking, surfing).

## EARLIER EXPERIENCE

- ▶ **IT Manager** — Dipamenggala Group (regional government IT projects); Web Developer, DigitalDevelopment.com (ColdFusion & PHP applications).
- ▶ **Network & System Administration** — PNBK, Hotel Geulis, PT Rheinald Khasali.
